

Do NOT approve cell phones for use in flight! There are people who are adversely affected and very sensitive to energy fields. Cell phone energy in a confined area of an airplane will make them sick! Possible lawsuits - health hazards on airplanes. Add that to the tension and stress of airplane travel these days and we create chaos. Cell phones are a part of everyday life these days but we all know how obnoxious personal conversations are in public, even in church. We do not need the added irritants of cell phones on airplanes! Please do NOT approve cell phones on airplanes. Thank you!
